Forecast for Friday 12 Nov 2021

Weather: Frequent showers or longer period of rain through the morning. Rain turns light and patchy by early afternoon. Becoming dry through the evening across southern Angus and Perthshire hills, patchy drizzle slower to clear across the Aberdeenshire hills.

Chance of cloud free mountain/hill tops above 800m: Nil through daylight hours, Improving to 60-70% across the Ochils and southern Perthshire hills late evening.

Visibility: Poor for much of the day in heavy rain and low cloud. Cloud bases extensive above 400-500m, occasionally down to 300m in the south of the area. Cloud breaking up and lifting above the summits across the Ochils through the evening, with cloud becoming more broken and patchy further north.

Met Office Aberdeen Meteorologist's View
Strong winds combined with heavy rain will give a significant wind chill. Gales across the higher summits in the morning.

Forecast for Saturday 13 Nov 2021
Weather: Low cloud thins and breaks through the early hours. Then a dry day with sunny spells improving through the morning. A largely sunny afternoon. Thicker cloud likely to spread east at the start of the night.

Maximum wind: Northwest 15-20 mph early morning, becoming light and variable by midday. South then Southeast 10 mph in the afternoon.

Chance of cloud free mountain/hill tops above 800m: 90%.

Visibility: Very good, any patchy low cloud should soon disperse in the morning.

Temperature: **Glens:** Plus 5 Celsius rising to 10 Celsius
At 800m: Plus 4 Celsius
Freezing level: Above the summits.
